## KAZOOS

Metal kazoo. Color: gold.

## MELOSTA32

32-key Melodica.

## OCA-PL

Plastic ocarina.

## Sensa Series

SENSA is definitely an ideal all-round series for drummers searching for cymbals with flexibility and variation of tone. The sound can be characterized as warm, sweet, bright, fast cut and washy, but all the while maintaining clear definition. The addition of new effect cymbals bring a brand new trashy sound to the Stagg cymbal range, further meeting the needs of today's modern discriminating drummers!

## Furia Series

The distinctive Furia two-toned surface, obtained by a pinpoint lathing process applied to the outer edge, allows for true sounds, inspired by nature.

## Vintage Bronze

Designed with the discerning old-school player in mind, Vintage Bronze Series cymbals offer an even response across the harmonic spectrum, with a slight emphasis on the lows. The resulting sound can be characterized as warm, dense and just the right side of dark, blending beautifully into any rock or jazz setting.

## SH Series

Affordability without compromise. Authentic hand-hammered, classically cast cymbals at a price within reach of all drummers.

## DXK SET

Brass cymbal study set. 16" Crash / 20" Ride / 14" Hi-Hat.

## Myra Series

A cymbal tailor-made for the musically demanding modern rock drummer. Myras are created to make you sound your best, slashing through even the densest mix.

## Black Metal Series

The BLACK METAL series represents a departure from the core Stagg cymbal sound. It focuses instead on a dry, mid-scooped response, with a strong accent on the low end harmonics, resulting in a sound as dark as its look! Highly recommended for the new breed of metal drummers.

## AXK SET

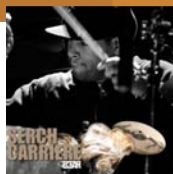

Stagg has developed new alloy cymbals using innovative technique that successfully creates the perfect balance between copper & steel. The result of this new craft provides a quality sound with the best value!

## CXA SET

Brass cymbal starter set. 16" Crash / 13" Hi-Hat.

## SCYBB-22

## Classic Series

Reminiscent of older Turkish models, Classic Series cymbals are noted for a fast response, generating superb low frequencies.

## Tam-tam Gongs

Tam Tam Gong with beater.

## DH Series

Stagg's DH (or dual-hammered) series consists of highly versatile professional cymbals for the most demanding players. Dynamic overtones, optimal projection and character.

## PBS/SPBS Bag Series

Economic & Professional reinforced black nylon bag.

## Drum Sets
