Upright and Grand Pianos

Reasons to Treasure

“YOUNG CHANG believes in the betterment of life through the inspiration of music.”

The Sound of Transparency

The transparent and distinctive sound of YOUNG CHANG is what makes us stand out. Our pianos are renowned for its dynamic range of musical expression, power and depth of tone. Treasured for the beauty of its sound and clarity of sound timbre, the Young Chang piano is pleasant and responsive to the touch.

Uncompromising Design

The soundboard's unique curvature is created by precisely applied tensions that result from the interplay of several factors, including the milling of the rib ends and drying phases in a climatic chamber.

Durability Built to Give a Lifetime of Satisfaction

Our piano parts are durable and long lasting. The piano's frame is made utilizing a cutting edge precision vacuum cast, manufactured in YOUNG CHANG's own facility.

Originality

Our company was established in 1956 as the first piano brand in Korea's history. YOUNG CHANG has become synonymous for reliability and quality of the finest instruments. Each of our instruments has undergone hundreds of individual steps in order to produce the perfect artwork of the finished product. Each piano made has been produced with the heart and soul of YOUNG CHANG.

Natural Raw Materials

The piano's tonal quality is integrally tied to the complex and specialized nuances of material selection. At YOUNG CHANG, the finest natural raw materials are selected, stored under controlled climatic conditions, and finally processed by skilled craftsmen. The creation of a YOUNG CHANG piano is a process that takes years upon years of perfecting.

The Perfect Touch

Through the selection of the finest materials by highly specialized craftsmen, YOUNG CHANG produces keyboards with ultra-responsive touch.

Treasure Your Pianos with Brilliant Finish

When the perfected art of the YOUNG CHANG piano is finished by the master craftsman, the result is a beautiful finish which will last during the lifetime of the piano.

Customer Service Our Commitment to You

The YOUNG CHANG family will be happy to provide you with a few tips to guarantee years of enjoyment of your piano, helping set us apart for exceptional warranty service. With our expert advice, we can help you optimize the value, quality, and enjoyment of your piano during its lifetime.

YOUNG CHANG piano designer
Delwin D. Fandrich
